That sounds good Stephanie. Please include Karl as well as:

Nicole Briggs briggs.nicole@epa.gov
Jay McAlpine McAlpine.Jay@epa.gov
Kelly Fortin Fortin.Kelly@epa.gov
Chris Hoagland Hoagland.Christopher@epa.gov

Thank you!

Hi Lauren, let's plan on March 10 at 11am AK time. I'll send out a meeting invite, who should I include on the EPA side?
Is Karl Pepple still your AQ point of contact?

Hi Stephanie,

Can we please schedule a meeting relatively soon, so we can front-load some of the information before the PDEIS review and workshop? If we have additional questions during the review, we can try to be more targeted. Right now, it looks like most folks on our side are available (AK time):

3/7 – 11 am, 12pm, 2pm

3/8 – 2pm

3/10 – 11am

Thank you for reaching out.

Chat soon –

Lauren

Subject: Check in on Willow SEIS Air Quality Approach

Hi Lauren, I wanted to touch base with you on the Willow SEIS and our approach to the air quality and GHG analysis. At some point I'd like to sit down with your air experts and discuss our approach and get feedback from you prior to publishing the Draft SEIS. The review of the admin draft for cooperating agencies begins on March 14, and we do have a workshop to address air quality and GHG, but it may be difficult to have this presentation address the technical needs of EPA and ADEC personnel while also gearing it towards community members who have questions on air quality impacts. I'd like to do a separate (shorter) meeting with just the EPA air folks to present the technical details of our approach to you all for your consideration as you craft your comments.

When would be the best time to do this? Would you like some time with the admin Draft SEIS before this meeting, or would you like to do the meeting first and then read through the SEIS analysis?
